Assistive Technology Resources

Below you will find a compiled list of assistive technology (AT) databases and additional information on AT resources. We hope that it will serve as a reference guide and an ongoing source of information for you and your AT product needs.

Please note: Key terms have been boldened and placed between asterisks (*) in the descriptions below.

Assistive Technology Databases

Some organizations offer specialized databases that focus on specific types of AT. If you would like to learn more about and explore different types of AT, please visit the databases listed below.

assistivetech.net

Assistivetech.net provides access to information on a variety of AT devices and services as well as other community resources for people with disabilities and the general public. Browse AT products by function or disability, by activity or task, or by the vendor’s name.

ATIA Membership Directory

Find out about the AT products and services Assistive Technology Industry Association’s (ATIA) members provide by looking through AT manufacturers, sellers, and providers in the ATIA Membership Directory.

Atvisor

From hygiene and self-care products to electronics and accessories, search through Atvisor’s Products Catalog to find and select products that best fit your needs.

EASTIN

This global AT database gives you access to multiple national databases including information about AT products and information about manufacturers and suppliers worldwide- translated in your preferred language.

Searchable Online Accommodation Resource (SOAR)

Search and find information about various accommodation options in work and educational settings for people with disabilities through SOAR, a database maintained by the Job Accommodation Network (JAN).

The Toolbox

AgrAbility’s database contains AT solutions, designs, ideas, techniques, and suggestions for farmers, ranchers, and other agricultural workers with disabilities.

Unified Listing

Search through this database to find access to communication, computers and digital devices.
Additional Information on Assistive Technology Resources

AgrAbility

AgrAbility offers agricultural workers with disabilities access to appropriate AT needed for work and daily living. AgrAbility hosts an AT database called the Toolbox: Agricultural Tools, Equipment, Machinery & Buildings for Farmers and Ranchers with Physical Disabilities. Visitors can view by category or search through the Toolbox to find products and designs. While AgrAbility does not sell any products, they do provide the name of the manufacturer or supplier at the bottom of each Toolbox information page.

- Phone: 1-800-825-4264
- Email: agrability@agrability.org

American Foundation for the Blind (AFB) and American Printing House for the Blind (APH)

AFB has partnered with the APH to take over their Information and Referral services. AT products and parts for consumers who are blind and low vision can be found in their APH Catalogs.

- Phone: 1-800-232-5463
- Email: info@aph.org

Assistive Technology Act Technical Assistance and Training (AT3) Center

Through the AT3 Center, visitors can access in-depth information about AT devices, services, and innovations. Visitors can also find contact information for their state’s AT Program (which offers funding for AT) in the State Assistive Technology Program Directory.

- Online Contact Form: https://www.at3center.net/contact

Assistive Technology Industry Association (ATIA)

ATIA members are the manufacturers, sellers, and providers of technology-based assistive devices and services for persons with disabilities. Visitors can find out more about the AT products and services ATIA members provide by browsing through their websites, which are listed in the ATIA Membership Directory.

- Phone: 1-877-OUR-ATIA (687-2842)
- Email: info@ATIA.org
EASTIN

EASTIN is a *comprehensive, global information service on AT*. Through their website, visitors can search for products by classification, keywords, commercial name, or the name of their manufacturer; AT manufacturers and suppliers; AT-related information; and more.

- Website: [http://www.eastin.eu/en/searches/Products/Index](http://www.eastin.eu/en/searches/Products/Index)

Job Accommodation Network (JAN)

JAN is a source of free, confidential guidance on *workplace accommodations*, including AT equipment. Assistance is available both over the phone and online.

- Website: [https://askjan.org/](https://askjan.org/)
- Phone: 1-800-526-7234
- Email: jan@askjan.org

National Directory of Home Modification and Repair Resources

This directory provides resources (i.e., featured programs, funding, service providers, and consumer materials) for *home modifications* (e.g., grab bars, roll-in showers, and ramps) and *repairs* for each state. A directory of local home modification service providers can be found through a state search.

- Phone: 213-740-1364
- Email: homemods@usc.edu

Pass It On Center (PIOC)

PIOC assists people with disabilities in gaining access to and *acquisition of reused AT*. Please click here to find AT Reuse Locations by state.

- Phone: 1-800-497-8665
- Email: passitoncenter@gatfl.gatech.edu

State Assistive Technology Program (AT Program)

Each state AT Program provides at least two out of four state level activities (services), all of which are geared towards helping individuals *find AT products* that best fit their needs. They include: AT Demonstration Activities (provides opportunities for hands-on exploration of various AT products); AT Device Loan Activities (enables people a chance to test out the AT product for a limited time prior to making a purchase); AT Reutilization Activities (offers used AT products at a substantially lower price); and AT State Financing Activities (provides financial loans or other initiatives to help individuals purchase/acquire an AT product). Contact your state’s AT Program to find out which of
the aforementioned activities they offer (contact information for each AT Program can be found in the State Assistive Technology Program Directory).

Unified Listing
The Unified Listing brings together 12 different AT databases from Australia, Europe, and the United States, focusing on AT for *communication, computers, and digital devices*. You can browse the website using a power Search, Classic Search, Guided Shopping, or finding similar products function.
